

Join the City of Prince George and enjoy a rewarding career where you can have a positive influence on the future of our community

The City is seeking to fill the following position:

## Engineering Assistant - Electrical Regular, Full-Time Utilities / Public Works Department

In this exciting and challenging role you will provide technical support for the efficient operation of the City potable water supply and distribution system, wastewater collection and treatment system and streetlight and traffic controller infrastructure. This role provides technical support for computer modeling, supervisory control and data acquisition (SCADA), integration and management of operational components of the water, wastewater, streetlight and traffic controller systems. This role requires a skilled electrical, technical, instrumentation and mechanical candidate to support the maintenance of utility plant and instrumentation. This position generally works with a high degree of self-direction while coordinating activities which include capital/utilities project designs and review, developing and coordinating projects and budgets, administering programs, liaising with and/or supervising consultants and construction crews, coordinating/processing subdivision referrals on behalf of the Utilities Division, writing studies/reports and correspondence, and supervising others involved in the collection of data.

We are seeking a highly motivated professional with a diploma in Electrical Engineering Technology. Designation as an ASCT is required. You will have at least five years' previous experience, including responsibility for developing and troubleshooting and maintaining SCADA systems and other instrumentation, and programming and instrumentation for water and wastewater systems. Computerized maintenance experience is preferred. Relevant experience with power sources including solar, hydro and generators. Relevant experience in programming and tuning UHF and VHF radio equipment. Design and management of water and wastewater systems (or components thereof) preferred. Relevant experience in programming of traffic controllers preferred. Local government experience would be an asset. You enjoy a fast-paced workplace and thrive working as part of an inter-disciplinary team. **Valid BC Driver's License, full privilege Class 5, is required.**

This **regular, full-time** position offers a starting wage of **\$ 36.90** per hour plus an excellent benefits and pension package.

Please apply in confidence by **March 30, 2017** to:
