16th Annual **ALBERTA POWER SUMMIT**

With a major change in Alberta's governance, discussion is once again needed to assess where new opportunities are available, and where constant challenges can be mitigated in Alberta's electricity sector. As such, we wish to invite you to participate in **Insight Information's 16th ALBERTA POWER SUMMIT**.

Like in previous years, the 2015 Power Summit will tackle the critical challenges and opportunities facing Alberta's electricity sector. This conference brings together policy makers and industry participants to encourage open and frank debate.

The select roster of speakers will share with you their expert opinions and insights on the issues that should be addressed if an electricity market that will meet the needs of all participants is to evolve. Important and thought-provoking questions will be addressed in this comprehensive two day event that is designed to provide up-to-date insight into the forces that shape the Alberta and North American electricity markets.

If you want to hear about what is happening in the Alberta electricity sector with analysis by the key people who make it happen, you will not want to miss the **16th ALBERTA POWER SUMMIT**.

Co-Chairs

Jason Comandante

Vice President, Commodity Portfolio Management
Capital Power Corporation

Frank Mannarino
